

2023 FACTORY STOCK TIRE GUIDELINES

EACH CAR WILL BANK 4 TIRES TO START THE SEASON.

Each team will submit the serial numbers for their 4 tires to the tire trailer BEFORE heats to be allowed to compete.

Forms will be available at the tire trailer.

Each team can start with either new or used tires, with a maximum of 3 new tires per car.

The 4th tire MUST show visible wear and must be brought to the tire trailer for approval.

850s and 790s are the only compounds permitted. They may be used in any position on the car. AT LEAST 1 TIRE ON THE CAR MUST BE AN 850.

Emergency tires will be approved as necessary. The tire must come off the track flat on the rim, or severely damaged and brought to an official before the conclusion of the night for inspection. Replacement tires will be allowed only for these conditions and can only be replaced with a used tire.
